

Building Circuit Protection

PRICE LIST
w.e.f. 01st Dec., 2015

**LATEST.
SAFEST.**

EURO-II Features

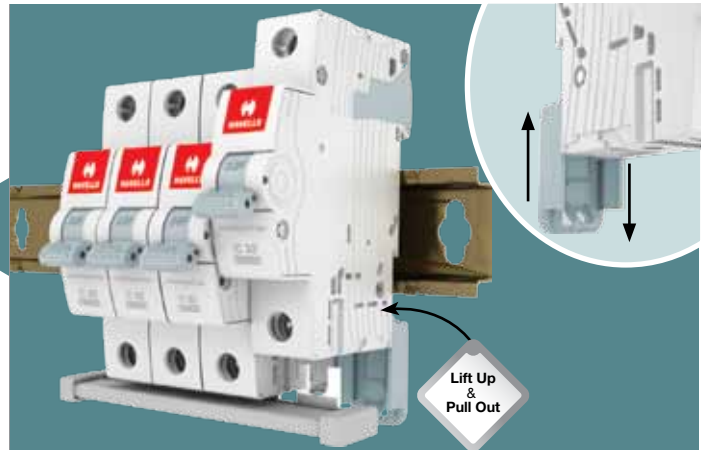

Safety Terminals -

To avoid improper cable termination, the safety terminals guide the cable towards the cage terminal for systematic termination

Bi Stable Clip -

Every device is provided with a dual position DIN rail clip, so it becomes much easier to change a device from a device bank connected to a bus-bar, without disturbing the existing wiring

Large Cable Terminals -

Suitable for copper and aluminum cables, these terminals are compatible with cables upto 35mm² cross section area

Cooler Operation -

Grooves provided on outer body, so that when individual poles are placed adjacent to each other in a distribution board it forms a very effective channel for better air circulation, resulting into a cooler operation

MCB

'B' Series SP MCB

(In accordance with IS/IEC 60898-1) 240V, 50Hz, 10kA Suitable for lighting and other domestic loads
